

Wildland Fire Management Research Development & Application

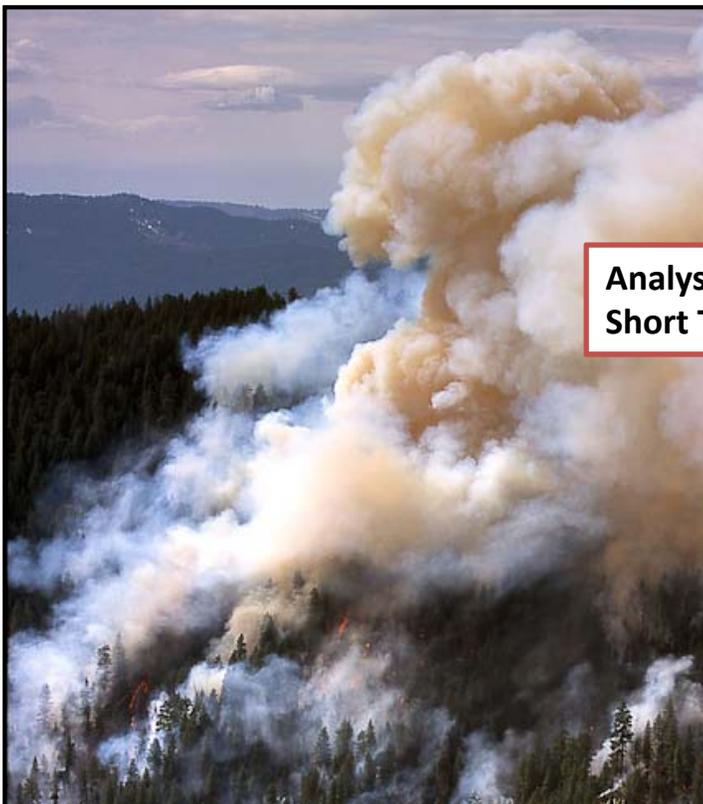

Obtaining Decision Support on Wildland Fires...

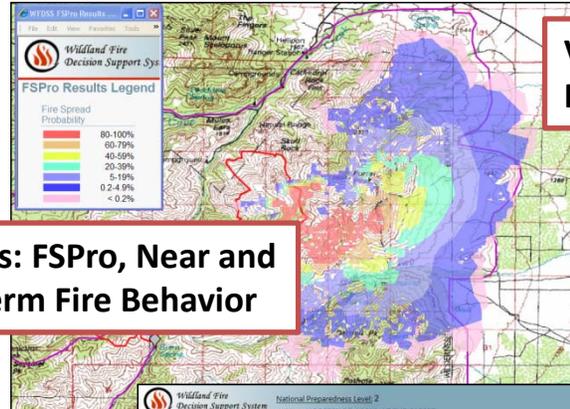

- Do YOU have an emerging incident?**
- Are YOU a Line Officer, Fire Manager, GA Editor, Fire Behavior or Long Term Analyst, or a Strategic Operational Planner?**
- Do YOU need assistance with decision support tools: Basic, Short & Near Term Fire Behavior, FSPro, SCI, Values-at-Risk, or incorporating analysis, risk, and long term assessments into a WFDSS decision?**

YES? Consider contacting the WFM RD&A for support and assistance.

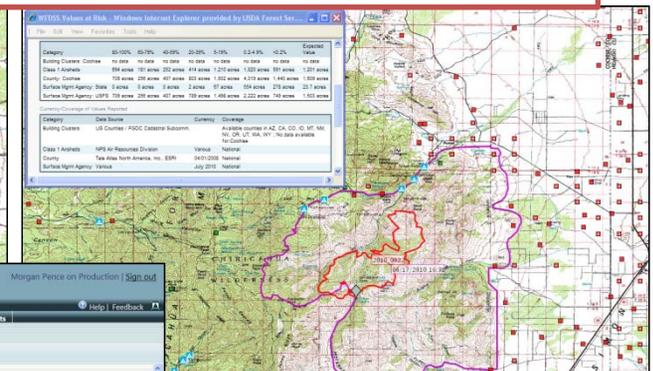

WFM RD&A staff are available to assist units with analyses and decision support for wildland fires.

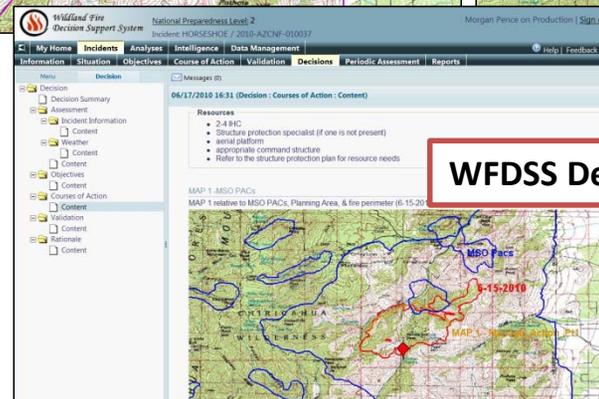

Analyses: FSPro, Near and Short Term Fire Behavior

Values-at-Risk: Infrastructure, Natural Resources, Designated Areas, etc.

WFDSS Decision Support

Requesting support: Contact your Geographic Area Editor or call WFM RD&A 7 days a week (208) 473-8107. Standard Operating Procedures available at www.wfmrda.nwcg.gov

WFDSS: <http://wfdss.usgs.gov> Provides training lessons, videos, guides, and Help Content. Contact the WFDSS Helpdesk for basic questions helpdesk@dms.nwcg.gov or 1(866) 224-7677.
